Python

C/C++

PERSONAL PROJECTS

Personal Portfolio (07/2021 - 08/2021)

- I created a personal portfolio website while learning web development.
- Notable features include a responsive text and image sizes both on PCs and mobile phones

Minesweeper Clone (05/2021 - 06/2021)

- I created a simple minesweeper clone made with the curses library in C
- Notable features include a menu screen with user-changeable options to select your own minefield size and the number of mines

AudiPoP (05/2020 - 06/2020)

- I successfully programmed a music player using python with an exceptionally clean UI
- Notable features include a volume rocker, skip to and previous song and a mute function

ACHIEVEMENTS

Grand Winner: Banana Hacks (07/2021 - 07/2021)

Achieved first place in a Hackathon with over 50 teams with the project Neighbour Network, built to combat the lack of face-to-face interaction among community members.

Overall Winner: Explore Hacks (08/2021 - 08/2021)

Achieved first place in a Hackathon with over 250 people with the project Ecoholics, built to help reduce the number of recyclable materials in landfills and incentivize recycling.

Best First Time Hackers: IBY Hacks+ (06/2021 - 06/2021)

Achieved the title of best first time hackers in a hackathon with over 40 people with the project Focus Elements, built to help students focus on their work during online school by preventing distractions.
